

The map displays the Columbia River and its tributaries, including the Willamette River and Clackamas River. The river's course is highlighted in blue, and the surrounding land is shown in various shades of green and brown. The map includes a grid of latitude and longitude coordinates, with labels for 122 20'00" and 122 25'00" on the x-axis, and 45 30'00" and 45 35'00" on the y-axis. A legend in the bottom right corner identifies symbols for 'Present in mainstem Columbia River' and 'Not present in mainstem Columbia River'. The map also shows various land use designations, including National Forest, and infrastructure like roads and bridges.

Columbia River: ESIMAP 24

Biological information shown on the maps represents known concentration areas or occurrences, but does not necessarily represent the full distribution or range of each species. This is particularly important to recognize when considering potential impacts to protected species.
