

SENSITIVITY OF COASTAL ENVIRONMENTS AND WILDLIFE TO SPILLED OIL

SHELIKOF STRAIT REGION, ALASKA

AN ATLAS OF COASTAL RESOURCES

ACKNOWLEDGMENTS

We would particularly like to thank Dave Maiero and Dennis Lees for assistance with collection of biological data; Herb Bruce, Paul Becker and Rod Combellick of the OCSEAP office in Juneau for providing advice and guidance, and George Lapiene for logistics coordination. Pilot Lt. Bud Christman and mechanic Tony Accurso safely maintained the NOAA helicopter throughout the survey. Graphics and map layouts were prepared principally by George Miles, Gene Speer, Mark Morris, Len Magnum, Jerry Cole and Starnell Perez.

The financial support for field work and original map preparation was provided by the National Oceanic and Atmospheric Administration/Outer Continental Shelf Environmental Assessment Program (NOAA/OCSEAP) through interagency support from the Department of Interior, Bureau of Land Management. All maps were prepared in 1980. An 132 page report detailing the coastal resources is also available.
